Secretary Murray, country Mr. Murray, for a time lived in Philadelphia, but about a little over four years ago came to Washington, where he has since resided. He is regarded as an extremely hard worker; was one of the charter members of the branch in Washington, and has always been one of its most enthusiastic supporters. Mr. Murray is also a delegate from the branch to the Federation of Labor and Carpenters' Council.

Council.

While in Edinburgh he attended the even ing classes at Herrot Watt College, passing the London science and art examinations in building, construction and practice. plane geometry, and received first-class cer

tions in building, construction and practical plane geometry, and received first-class certificates from each. He also took second frize in the evening class of the college.

Treasurer Burley, who has cared for the finances of the branch ever since its organization, is a native of Leicester, England, having been born there in 1851. He was educated in his native to wn, and also learned his trade there. He joined the society at Nottingham, England, twenty-two years ago, and is now one of the veterans of the frequency to Washington direct from England, during May, 1889. Like Mr., Muntay, he is a hard worker for the cause of organized labor. He has been a delegate to the Federation of Labor, his term as such expiring a few days ago.

Case of Ex-Constit Waller.

Case of Ex-Consul Waller.

Mr. Crammond Kennedy of this city and Mr. McGuinn of Baltimore have become associated with Mr. J. M. Langston as counsel for ex-Consul Waller now languishing in a French prison for offenses alleged to have been committed against the French authorities in Madagascar. Acthe French authorities in Madagascar. According to Mr. Langston, the question of the arrest of Mr. Wailer and his stepson, Mr. Bray, is not the only point involved in this case, but back of it is the question of the title to the concession made to Waller by the Hova government. The land question, Mr. Langston said, will be pressed independently of the matter of Waller's release from prison, though the latter feature of the case will not be neglected. Mr. Langston also declared that the United States government had taken hold of the entire natter with sincerity and vigor, and that the American representatives having anything to do with the question in any capacity have received renewed instructions within the past two or three days to Copeland & Co., 409 11th St. GOLD KNOCKED OUT.

covered a number of republican ballots which had been defaced and thrown out by the use of a "joker" or thumb stamp. As a result, the board ordered the arrest of all officers of election in the precincts af-fected. It is believed that Congressman McGan, democrat, is defeated beyond a foult. John T Ellis, the newspaper correspondent, who fell on the stairs of the Hotel Thorndyke at Boston Tuesday, fracturing hip skull, died. Mr. Ellis was well known in newspaper circles in New York, Chicago, St. Louis and Washington.

A CARPENTERS' SOCIETY A STRIKE POSSIBLE ELECTRICAL WORKERS THE SIGMA CHI SOCIETY

One That Looks Out for the Sick and Unem-

Citizens May Find Themselves Without Bread Some Fine Morning-How the Trouble Arose.

There are ominous forebodings of grave trouble impending octween the boss bakers of Washington and Drivers' Assembly, No 1046, Knights of Labor, which, unless prompt steps are taken by the former to rrest it, may come to a crisis in the near future, and a strike occur beside which that of the Anacostia railroad employes, which has just been settled, was not a circumstance. In the latter probably not nore than 4,000 or 5,000 persons were directly interested, while in the case of the former hardly less than half the popula-

tion will, if the strike occurs, become more or less involved. A report, which is said to have come from what different from that of most bene what different from that of most beneficial societies, the plan being very comprehensive. Besides looking generally after the interests of carpenters and joiners, it is the purpose of this organization to provide against lack of employment, loss of tools by fire, water or theft; sickness, accident, old age or death.

There are now in the parent society between 43,000 and 44,000 members, with a capital, at the time of the date of the last report, December last, of 4437,726.96, or \$10.17 per member, all of which is in available cash, except a comparatively small portion, which is invested in a building in which the home offices are located.

A report, which is said to have come from one of the boss bakers of the city, reached the members of Drivers' Assembly several days ago that a movement was on foot among their employers, who are organized as the Boss Bakers' Exchange, to black list the members of the local assembly for no other reason than that they are members of a society which is affiliated with organized labor.

At the first meeting which followed the receipt of the surprising news, as told above, the subject having been meanwhile investigated by Secretary Nairn of the Drivers' Assembly, and ascertained, as it is said, to be correct, resolutions were passed denouncing the movement on the part of the boss bakers as "cowardly and un-American, and pledging the members to stand by each other to the extent of ordering a general strike in all shops controlled or operated by the members of the Boss Bakers' Exchange, if they persisted in carrying out their threat. The resolutions also asserted the right of wage earners to organize and protect their mutual interests, and maintaining the unquestionable right of every citizen to obtain employment wherever he can without having to be in fear of the black list hanging over their heads."

Coples of these resolutions were forwarded to the Federation of Labor and District entitled to tool benefits, to any amount of

heads."

Copies of these resolutions were forwarded to the Federation of Labor and District Assembly No. 66, Knights of Labor, and indersed by both at the last meeting of

loss by fire, water er theft not exceeding \$140 in one claim. When any of these losses occur to a member of but six months' standing his claim must be limited to \$21. Any free member losing employment through loss of tools by fire, water or theft is immediately entitled to unemployed benefit. Any member who may be discharged for holding office is entitled to full wages and the cost of removing his family to the place at which he obtains employment. When a sick member recovers from his illness, if he is out of employment, he is at once entitled to unemployed benefit. There is also a benefit of \$700 to members who may become totally disabled by accident, and of \$350 to those who may become partly disabled from the same cause. There are also a superannuation benefit for life to those who have been members for eighteen years, and a larger sum for those who have been connected with the society for twenty-five years, and a funeral benefit for not only the members, but the wife of the latter.

The society now has 678 branches, forty of which are in the United States, and eight in Canada, and has also spread over the British Isles, New Zealand, Australia and South. Africa. The income last year was \$578,705, and the sum expended for benefits amounced to \$473,570.

Recently a trade section of the society, which has already become quite flourishing, was established for he benefit of those whose age will not ipetimit them to join the ordinary section as full members. Candidates for this section must be not less than forty nor more than sixty years of age, and in return for the fees receive benefits guaranteed as follows: For leaving employment under circumstances satisfactory to the brasch, if a member three months, \$2.10 per week, and if a member six months, \$4.90 per week, and if a member six months, \$4.90 per week, as also a tool benefit in case of loss of not exceeding \$55, and accident benefit of circumstances in cases of distress. Indersed by both at the last meeting of each.

Members of the Boss Bakers' Exchange who have been questioned in regard to the matter deny all knowledge of any such intention on their part, but the drivers maintain that they have good reason for the stand they have taken.

As nearly every driver in the city belorgs to the local assembly and each practically controls the route he serves it seems almost suicidal for the boss bakers to attempt to carry out any such scheme

seems almost suicidal for the boss bakers to attempt to carry out any such scheme as to black list the drivers. It is true the boss bakers own the horses and wagons, by means of which the bread is delivered to customers, but in almost every instance the prosperity of the route is mainly dependent upon the popularity of the driver. In most instances the latter are paid a small salary and a commission, the receipts of the latter varying as the trade increases or decreases, and there is scarcely a single driver who cannot carry the great majority of his customers to whatever baker he may be employed.

Should such a contingency as a strike take place the drivers are confident that they will have the sympathy of the people who are served by them, and in this event they would have the utmost confidence in securing a victory.

they would have the utmost confidence in securing a victory.

A sudden strike of the drivers would mean that not less than 100,000 people in Washington would be put to great inconvenience on the succeeding morning for bread, and those who keep in touch with the trend of events in labor matters and are aware of the immense interests involved view the situation with much alarm.

AT MARTHA'S VINEYARD.

Washingtonians Who Are Summering at That Popular Island.

e of The Evening Star. MARTHA'S VINEYARD, July 18, 1895. The raw and chilly weather which has prevailed for the past fortnight has dampened the ardor of the average Vineyard landlord, while overcoats and open grate fires were in demand, and the landlords prayed for a hot wave. The regular so-journers are here and the cottages are well filled. Hundreds of visitors make it a point to frequent the Vineyard on the Fourth to avoid the noise of the patriotic cities, but there was a lull in the rush this year, occasioned, no doubt, by the raw weather, but the remainder of July and the prolonged hot and sultry August weather. weather, but the remainder of July and the prolonged hot and sultry August weather will bring the usual number. Among the conspicuous social events of the week was the Martha Washington party given by Mrs. M. V. Phillips, who is this season occupying the Josiah Quincy cottage at the "Chop." During the afternoon they had a salling party in the harbor and sound, and terminated the festivities at the cottage during the evening. A large colony of army and navy people make up the summer personnel of this place, and in addition to those previously mentioned the following have joined: Col. Thomas F. Barr of the Judge advocate general's department; Capt. have joined: Col. Thomas F. Barr of the judge advocate general's department; Capt. James S. Petite, first infantry, wife and children; Mrs. Col. Scott of Washington and her daughters, Martha and Nina. Hay rides are in order frequently, and many excursions are made to Lake Tashmoo. The poets and painters have not discovered this gen of a lake yet, which rises at the celebrated Tashmoo Springs and empties into Vineyard sound, which stretches, a sheet of sapphire blue, away in the distance to grand old ocean. Some day this matchless land-locked sheet of water will be a great source of inspiration.

Looking for a Horse.

Robert Kinnear, the owner of a livery stable in Baltimore, hired a team at Callahan's livery stable here yesterday, and went to Colesville, Montgomery county, Md., in search of a horse and buggy that had been stolen from him, so he alleges, by William Claseil Grimes, the young man who has given the officers of the law, both here and in Maryland, so much trouble. Detective Barringer of Baltimore and Detective Rhodes of this city accompanied him. The stolen property was recovered, but one of the hired horses died of colic, and if the Baltimore man has to pay for the dead horse he will not gain much by recovering his property. Mr. Kinnear drove on to Baltimore, and the detectives returned home this morning.

Activity of the Local Union in This Behalf-An Interesting Meet-

Being Held in Washington.

The movement inaugurated by President John M. Berger of Local Union No. 26 of Electrical Workers of Washington to have the approaching convention of the Nation al Brotherhood of the order held in this city is meeting with the most surprising success and has secured one friend at least in the executive board, which has final control of the matter, as a letter from Secretary-Treasurer J. T. Kelly, which was received this morning by Mr. Berger, will

writes Mr. Kelly, "I would like to see the convention in Washington, as I have never had the pleasure of visiting our capital had the pleasure of visiting our capital city and should like to take the trip. However, this will rest entirely with our unions. I would suggest that No. 26 send in a formal request for the convention and also that you present a few reasons in your communication for the Worker why the convention should be held in Washington. This would probably call the attention of some of our unions to the advantage of holding a conyention in Washington who would otherwise be indifferent as to where the convention would be held."

Philadelphians Favor It. President Berger also received a commu-nication from Mr. C. W. Elliott, recording secretary of Local Union No. 41, Electrical Workers, of Philadelphia.

He writes as follows: "I have the pleas

Workers, of Philadelphia.

He writes as follows: "I have the pleasure to inform you that No. 41 cheerfully acceded to your request in reference to indorsing Washington for the meeting place of the coming convention by an unanimous vote, and have so informed Grand Secretary-Treasurer Kelly. With the very best wishes of No. 41 for the success of No. 26 in having the convention in Washington."

The subject of the coming convention occupied a large share of the attention of the members of Local Union No. 26 at its meeting last night, and much enthusiasm on the subject was exhibited.

Assuming from the number of favorable replies received by President Berger to letters sent out to the various unions in every portion of the United States that Washington will be the place of meeting selected, the committee of arrangements, of which Mr. R. F. Wetzel is chairman and Mr. J. M. Berger secretary, has arranged an interesting program to be carried out on the occasion. It will include a visit to the White House and reception by President Cleveland, a trip to the top of Washington monument, the various national buildings and places of general interest, a large street parade at night, in which all the societies connected with organized labor in the District will be asked to participate, a grand display of fireworks, visits to the theaters and a trip to Marshall Hall and Mount Vernon.

The Evening Star Appreciated.

The Evening Star Appreciated. During the meeting last night resolution appreciative of The Star for the publication of labor news were passed and much other business transacted. Applications for membership as journeymen were received membership as journeymen were received from John Collins and Wm. H. Balser, and as apprentices from John C. Gloyd and Wm. Seim. A. Mau was reinstated.

An application for two men was received from the Georgetown and Tenleytown Railroad Company, and the paper was filed.

On motion, it was determined that the uniform to be worn by the members of the union in the Labor day parade shall consist of blue overalls, light shirt and cap, with miniature electric lamp in front.

MR. MacCAULEY IN JAPAN.

The Former Pastor of All Souls' and His Unique School. In a letter to the New York Herald Mr. Cockerill says of Rev. Clay MacCauley, formerly of All Souls' Church in this city: There is, in this capital of the Japanes empire, an institution unlaue and remarkable. It is the 'Senshin Gakuin,' or School

two graduates, one on 'Japanese Ancestor Worship,' and the other on 'Individual-ism.' The ex-president, Mr. Hiroyuki Kato, delive.ed an address on 'Occidental and Oriental Ethics,' a most worthy and thoughtful production.

"At the head of the Senshin Gakuin stands Mr. Clay MacCauley, president and founder, whose published essay on 'The Religious Problem in Japan; How Solve II.' has been widely read and quoted. His school has so far had more than forty students, who have devoted themselves to scientific and pibliosophical study of religion, ethics and social science. The method is perfectly free inquiry—no prejudice being manifested toward any existing religion. It is the only school of the kind in Japan, and there are few like it in the world. The faculty is composed of seven members, and the examinations are rigid. There are no text books, all teaching being through lectures and essays. There are Christians, Buddhists, Shintoists and Confucianists by oducation and association in the faculty, but all have the same object in view—search for the truth wherever it may be found. Mr. MacCauley is a Christian, but he interprets Christianity as large enough to include the abject.

"The building in which the school is maintained is called Yullitsukwan (Unity Hall). Its value, with the grounds, is 22,000 yen. It was built out of the subscriptions of the American Unitarian Association has a publication department, and church extension department, besides Mr. MacCauley's Free Thought School. Under these aussices pamphlets and books are printed and sent out, designed to further the study of religious ethics and social science, and a monthly magazine called Shukyo (Religion) is published, which is an open arena for thinkers, dealing with themes concerning the higher life of the Japanese people. This magazine has been in existence about four years, and it is a decided formative force in the literature of Japan. Its list of contributors contains some of the Alapan, he accepted the superintendency of this mission in Tokyo and

Lieut. J. B. Milton has been ordered to the Olymp'a, relieving Lieut. J. Hubbard, ordered to the Essex. Lieut. J. A. Hoogewerst has been ordered to the Naval Academy. L'eut. C. W. Ruschenberger has been detached from the Naval War College and ordered to the League Island navy yard. Passed Assistant Engineer A. B. Canaga has been ordered to duty at the Columbia iron works.

Result of a Prank. Miss Ella Templin of Birdsboro, Pa. who was seriously injured at Douglassville as the result of Harvey Potts' drawing a chair away from her as she was about to sit down, is in a critical condition.

The lower part of her body is completely paralyzed, and if she should recover, which is doubtful, she will probably be a helpless cripple for life.

Chances of Trouble Between Boss Bakers | Probability of Their National Convention | A Popular College Organisation to Which President Cleveland Belongs.

> Well Represented Otherwise in Washe ington-Importance of Approaching Grand Chapter in Cincinnati.

The twenty-second Grand Chapter of the Sigma Chi Fraternity will be held at Cincinnati, Ohio, July 25, 26 and 27. The fraternity is composed of forty-five active and eight alumni chapters in the different colleges and cities of the United States. There is an active membership of about 600, and the alumni represent about 5,000. Three years ago President Cleveland was initiated into this fraternity, and at his inauguration, in 1893, the fraternity presented him with a handsome diamond badge, which he wore on that occasion and at the inaugural ball.

The fraternity is well represented in Washington by the Washington Alumni Chapter and the active chapter "Epsilon," at Columbian University. The officers of the alumni chapter are Dr. G. N. Acker, president, Mr. Theo. W. Noyes, vice president; Mr. F. W. McReynolds, secretary and Mr. Wm. J. Acker, treasurer. The delegate elected to represent the alumni chap-ter at Cincinnati is Dr. Robt. Farnham, with Dr. G. N. Acker alternate. The delegate frcm Epsilon will be Mr. Robert Farnham, jr., with Mr. Leroy Parker as alternate. This being the fortieth anniversary of the organization, the convention is expected to be one of the most important in the history of the order, as several radical and important measures will be called up, especially in regard to the government of the fraternity, the ritual and the adoption of a flag and coat of arms. Most important, however, is the question to be decided as to the voice the active chapters will have in the granting of new charters. From accounts received from Cincinnati it looks as if there will be a large attendance, and the Cincinnati alumni are making extensive preparations to entertain the visiting brothers. Gen. Benjamin Runkle, one of the founders, will deliver an address to the members. gate from Epsilon will be Mr. Robert

visiting brothers. Gen. Benjamin Runkle, cne of the founders, will deliver an address to the members.

The head of the fraternity is composed of a "grand consul," and has been ably represented for the last three years by Mr. Reginald Fendall of this city. At this convention it will elect a new grand consul and other officers. There are many candidates in the field. Mr. Fendall has been asked to run again, and other candidates mentioned are Dr. F. A. Scratchley of New York city, Rev. Dr. Theo. K. Gessler of New York, Dr. E. E. Montgomery of Philadelphia, Pa.; Dr. R. Farnham, Washington, D.C.; Judge James Newman, Oxford, Ohio; Judge Howard Ferris, Cincinnati. Ohio, and Walter L. Fisher, Chicago, Ill. It is expected a large delegation will go from this city.

New York at Atlanta. The New York state commissioners to

the exposition at Atlanta have established readquarters at the Gilsey House. The comnissioners have just returned from Atlanta. The intended exposition, they say, will undoubtedly rank next to the world's fair in Chicago in importance, size and attendance Chicago in importance, size and attendance. The indications are that it will exceed the centennial exposition. The commissioners are satisfied that no such opportunity has ever been presented to the northern people to reach all classes of southern trade and to establish commercial and social relations with the south.

ADAMS. On July 19, 1895, at 9 a.m., at his residence, 143 D street northeast, WILLIAM ADAMS. Had He naked us well we know
We should say, Oh, spare the blow;
Yes, with streaming eyes we say,
Lord, we loved him, let him stay.
In peace he lived, in love he died,
His life was asked, but God denied.
BY HIS GRANDCHILDREN.
